

AMPLIFY OUR TEAM

Software engineer (m/f)

We offer:

- A long-term professional perspective in a constantly growing company
- A convenient work environment with optimum conditions for your career
- A responsible task with appropriate creative potential
- An attractive salary, and a structured job training

Your profile:

- University degree in computer science or in a comparable branch of studies
- Practical experiences with respect to the design and the development of C++ applications in a Windows environment, or knowledge of a scripting language (JS, HTML, VB-Script, Web Development)
- Ideally, work experience in the field of mechanical engineering and in programming machine control software in Windows
- Analytical and systematic approach to work
- Readiness to assume responsibility and contribute your own ideas to the job
- Good command of English and German
- Distinct customer and team orientation

Your Tasks:

- Enhancing our Windows-based machine control software
- Developing new, and enhancing existing user interfaces and utilization concepts or our customers
- Creating new modules for our machine control software
